WARM UP WITH MIRKA

ABVD...

Mirka Abranet is a unique net sanding concept. It is the solution to boost your performance, increases your profitability, improve the quality of your finish, and helps protect your health, whatever your sector of activity.

Abranet is multifunctional, developed for sanding timber, fillers, primers, lacquers, composite materials and a wide range of other materials for industrial use.

Abranet is highly resistant to dust pilling and clogging. With on-tool dust extraction from virtually the entire abrasive surface, sanding grains can retain their cutting power, and the resulting dust is safely removed.

Suitable for use on all hook & loop sanders however best combined with Mirka's efficient and ergonomic power tools and dust extractors.

Healthier working environment – Dust-free sanding.

Saves time – No dust, reduces clean up time.

Saves money – Net sanding products virtually eliminate clogging and, therefore, last longer than traditional paper products.

Practical – No need for covering material or equipment to protect them from dust.

Quality finish – The unique net construction characteristics create a finer scratch pattern resulting in a better surface finish.

Available in 125mm and 150mm diameters and grits from 80g to 1000g. 50 disks per box.

Buy Abranet disks in September and go into the draw... win one of two heated puffer jackets each valued at **\$150**
